

**Antepartum Fetal Assessment Education Course**

Course	Objectives	Description	Nursing Contact HOURS
Antepartum Fetal Assessment Education Course	<ol style="list-style-type: none"> <li>1. Explain physiologic principles of maternal-fetal oxygenation as related to antenatal assessment of fetal well-being.</li> <li>2. Compare the methods of antenatal testing, including analysis and interpretation.</li> <li>3. Determine steps in the clinical plan of care based on antenatal testing results and interpretation.</li> </ol>	<p>Antepartum Fetal Assessment Education Course will provide nurses and clinicians working in the antepartum and ambulatory settings with a course that includes antenatal testing, creating a welcoming and inclusive clinical environment, and fetal monitoring interpretation. Course participants will gain an increased understanding of the physiologic principles of maternal-fetal oxygenation as related to antenatal assessment of fetal well-being. Using a case-based approach, participants will have the opportunity to determine the steps in the clinical plan of care and interpretation of fetal monitoring tracings.</p>	1.0
