

2026 Perinatal Quality Improvement Chat Series

Webinar Title	Objectives	Description	Nursing Contact HOURS	NCC Codes
Webinar 2: Perinatal Quality Improvement Chat Series: Shared Understanding	By the end of the learning event, participants will increase their knowledge on the concept of "understanding" and identify at least ONE way to use Gemba in their professional practice to support quality improvement efforts at their facilities.	High-reliability care begins with understanding the story your data tells. This engaging webinar in the Perinatal Quality Improvement Series focuses on building foundational skills in data literacy for perinatal professionals. Participants will explore how to interpret clinical and operational data, differentiate between common cause and special cause variation, and use data to identify meaningful opportunities for improvement. Designed for nurses, leaders, and interdisciplinary team members, this session equips participants with practical tools to move beyond data collection toward informed decision-making that strengthens patient safety and outcomes.	1	Inpatient Antepartum Nursing (RNC-IAP®) - Professional Practice (Code 4) Inpatient Obstetric Nursing (RNC-OB®) - Professional Practice (Code 6) Maternal Newborn Nursing (MNN®)- Professional Practice (Code 4) Neonatal Intensive Care Nursing (RNC-NIC®)- Professional Practice (Code 4) Neonatal Nurse Practitioner (NNP-BC®)-Professional Practice (Code 5) Women's Health Care Nurse Practitioner (WHNP-BC®)- Professional Practice (Code 5)
	By the end of the learning activity, participants will be able to identify at least one strategy for applying a quality improvement tool, such as a run chart, Pareto analysis, or Fishbone Diagram to support quality improvement initiatives within their practice setting.			Obstetric and Neonatal Quality and Safety (C-ONQS®)- Code 28
